The Grand Lodge will increase our capacity to host cost-free programs to military service groups. This translates to having a positive impact on the lives of an additional 50+ Warriors and approximately 250 of their family members each year as a result of their one-week stays at the Retreat!

We will be able to use The Grand Lodge as our main facility to continue programs we currently hold in our existing houses. “No Man Fights Alone” is one of these programs hosted at the Retreat that focuses on individual service members who are dealing with the effects of PTS. For Warrior couples, “Love Never Gives Up” is a program designed for the Warriors and their spouses who are dealing with PTS as it affects their marital relationship. Many testimonials have noted that participating in these programs have been life-changing experiences resulting in marriages and lives being saved.

The addition of a Grand Lodge at the Retreat will also allow Willing Warriors to expand our partnerships with other service organizations assisting Veterans. Warriors transitioning from the battlefield to civilian life will benefit from programs hosted here. We will also be equipped to meet the needs of active-duty Warrior battle buddies to reunite and share each other’s company again in an enjoyable and stress-free environment.

This new lodging house will include a large activity room to provide space for the seminars mentioned. Our speciality groups will be able to meet under one roof while still experiencing the comforts of home.
The Grand Lodge

AT THE WARRIOR RETREAT AT BULL RUN
